SOYA BEANS [NON -GMO]

High-quality Ethiopian soybeans grown naturally without GMOs. Ideal for oil extraction, feed processing, flour, and food production.

- ✓ Moisture: $\leq 12\%$
- ✓ Purity: $\geq 98\%$
- ✓ Foreign Matter: $\leq 2\%$
- ✓ Oil Content: 18–20%
- ✓ Origin: Gondar & Bahir Dar
- ✓ Packing: 50 kg PP bags

GREEN MUNG BEANS

Clean, bright green mung beans with high purity, excellent for sprouting, dhal processing, and food manufacturing.

- ✓ Moisture: $\leq 12\%$
- ✓ Purity: 98–99%
- ✓ Damaged/Discolored: $\leq 2\%$
- ✓ Origin: Humera & Gonder
- ✓ Packing: 50 kg PP bags

SESAME SEEDS

Carefully cleaned and graded high oil content Humera sesame (48–50% oil), globally known for premium tahini and oil extraction.

- ✓ Moisture: $\leq 6\%$
- ✓ Purity: 99.5–99.9%
- ✓ Oil Content: 48–50%
- ✓ Admixture: $\leq 0.05\%$
- ✓ Origin: Humera Zone, Ethiopia
- ✓ Packing: 50 kg PP bags

WHITE PEA BEANS

Clean, uniform white pea beans with high purity, ideal for canning, food processing, and export-grade manufacturing.

- ✓ Moisture: $\leq 14\%$
- ✓ Admixture: 1%
- ✓ Imperfect Beans: 3%
- ✓ Foreign Matter: 0.5%
- ✓ Bean Count: 250 -330 beans per 100 grams
- ✓ Packing: 50 kg PP bags
- ✓ Color : Uniform white to cream

RED KIDNEY BEANS

Deep red, uniform kidney beans with high purity, perfect for canning, food manufacturing and premium export applications.

- ✓ Moisture: $\leq 14\%$
- ✓ Admixture: 1%
- ✓ Imperfect Beans: $\leq 3\%$
- ✓ Foreign Matter: $\leq 0.5\%$
- ✓ Size : 180 -220 beans per 100 grams depending on grade
- ✓ Packing: 50 kg PP bags
- ✓ Color: Uniform deep red

LIGHT SPECKLED KIDNEY BEANS

Light speckled kidney beans with uniform size and high purity, ideal for canning, food processing and consistent export-grade supply.

- ✓ Moisture: $\leq 14\%$
- ✓ Admixture: 1%
- ✓ Imperfect Beans: $\leq 3\%$
- ✓ Origin: Ethiopia
- ✓ Packing: 50 kg bags with liner
- ✓ Crop year must be stated

DARK SPECKLED KIDNEY BEANS

Rich red speckled kidney beans with uniform size and high purity, well-suited for canning, food manufacturing and reliable export-grade supply.

- ✓ Moisture: $\leq 14\%$
- ✓ Admixture: 1%-2%
- ✓ Imperfect Beans: $\leq 3\%$
- ✓ Foreign matter: $\leq 0.5\%$
- ✓ Grain size : 180 to 220 beans per 100 grams
- ✓ Uniform red color with natural speckle patterns
- ✓ Packaging: 50 kg bags with liner

BLACK CUMIN

Aromatic, deep-black cumin seeds with high purity, ideal for spice processing, oil extraction, and premium export-grade applications.

- ✓ Moisture: $\leq 7\%$
- ✓ Admixture: 1%
- ✓ Imperfect Beans: $\leq 3\%$
- ✓ Foreign matter: 0.5%
- ✓ Color: dark black
- ✓ Aromatic seeds, uniform size
- ✓ Packaging: 25 kg or 50 kg bags

KABULI CHICKPEAS

Cream-colored Kabuli chickpeas with uniform size and high purity, ideal for canning, hummus production and premium export-grade processing.

- ✓ Moisture: $\leq 12\%$
- ✓ Purity: 98% -99%
- ✓ Admixture: $\leq 1\%$
- ✓ Broken and split: $\leq 2\%$
- ✓ Color: cream or light beige
- ✓ Size: 8mm - 10mm
- ✓ Packaging: 50 kg bags

DESI CHICKPEAS

Brown Desi chickpeas sized 5–7mm with 98% purity, low moisture, and minimal admixture—ideal for milling, food processing, and bulk export packaging.

- ✓ Moisture: $\leq 12\%$
- ✓ Purity: 98%
- ✓ Admixture: 2%
- ✓ Broken and split: 2%
- ✓ Color: brown
- ✓ Size: 5mm -7mm
- ✓ Packaging: 50 kg bags

Premium Ethiopian turmeric bulbs with vibrant yellow to bright orange color, rich aroma, carefully cleaned and sun-dried, naturally flavorful, and ideal for seasoning, food processing, and export markets.

- ✓ Moisture: 7% - 12%
- ✓ Curcumin 2% - 4% depending on region
- ✓ Length : ≥ 3 cm
- ✓ Purity: 98%
- ✓ Admixture: 2%
- ✓ Foreign matter: 1%
- ✓ Packaging: 25 kg or 50 kg bags

PRODUCT SPECIFICATION

Our pulses and oilseeds are sourced from trusted Ethiopian farmers and processed under strict quality control procedures. We ensure every shipment is clean, fresh, and fully protected from contamination.

We maintain superior product quality through careful cleaning, grading, and sorting, ensuring uniformity across all batches. Each lot is examined for moisture levels, purity, and foreign material, supported by routine laboratory assessments.
